

# Make the Most of Your Private Study Time

There are plenty of things you can be doing in your free periods

## 1 COMPLETE ANY HOME LEARNING YOU HAVE BEEN SET

---

You should check for any Home Learning first and get that completed as soon as possible, when the lesson is still fresh in your mind.

## 2 CONSOLIDATE YOUR KNOWLEDGE

---

Following each lesson, you should consolidate your knowledge by reading through your notes and filling in any gaps.

## 3 MAKE REVISION MATERIALS

---

You should make you have good quality notes so you are able to revise from them throughout the year. You can also make other revision materials – like revision cards – anything you do now will save you time closer to exams.

## 4 PLAN AHEAD

---

You can look ahead to the next topic and do a little research before the next lesson. It will then be easier to follow the content covered in the lesson, making it less stressful.

## 5 WHAT'S NEXT?

---

If you find that you have free time after completing all of these steps you can begin to research what you plan to do after Sixth Form – it's never too early to start. There are lots of options out there, so it is a good idea to research them and create options for yourself.
